

Software Engineering Practice Limited

Promoting professionalism in software since 2014

{S.E.P}

Company overview - 2017

Software Engineering Practice Limited

{S.E.P}

Software Engineering Practice Limited is a not-for-profit company (limited by guarantee) based in the UK which encourages good practice, diversity, and professionalism in software engineering.

Our aims are:

1. To encourage and disseminate good software engineering practices.
2. To provide education in the field of software engineering.
3. To encourage diversity and professionalism within the field of software engineering.

All our activities are applied towards these aims.

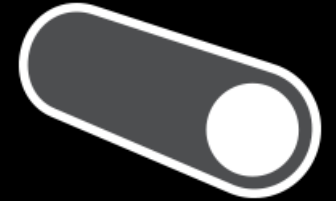

At Software Engineering Practice we organise and promote learning events and initiatives.

PIPELINE Conference is widely recognised as the foremost conference in Europe dedicated to the practice of Continuous Delivery for software systems.
